

‘Super-Ice Cube’ Insulated Bulk  
Shipping Containers  
SPECIFICATION SHEETS

## Key Features and Benefits

- **Certified Independent Lab Tested - Proven to keep both Refrigerated and Frozen Perishables within desired insulated shipping temperature ranges for 48 HOURS minimum when properly loaded with cargo and sealed.**
- **Cubes are re-useable. Food Grade EPS foam allows for cleaning and reuse. This is not possible with cardboard due to moisture and contamination.**
- **Modular components allow for long term reduced costs of replacement when damage occurs. Just replace the broken piece not the entire cube.**
- **EPS Foam-100% recyclable. We have partnered with Recycle tech and have a densifier in-house to ensure all non-reusable components are recycled.**
- **Thermal properties of foam allow for more stable product temperatures along with a reduced need for dry ice. This means higher product protection with less exposure for workers unloading blocks of ice.**
- **Tongue and groove front panels come off completely to allow for Zero reach loading/unloading.**
- **Once unloaded, components are light and easy to move out of the way. The cube pallet bottom only weighs 7 pounds. A wood pallet averages between 40 and 60 pounds depending on type.**
- **No more wood pieces, nails, potential insects or open slats to step through on these pallets.**
- **Large cube is 6 cubic feet larger than a standard Gaylord shipper. This along with reduced need for ice means more product in less space saving on rental charges for offshore shipping containers.**

## 'Super-Ice Cube' Insulated Bulk Shipping Containers(Large)

**Large Cube-SKU: 360 SUPERCUBE**

**Inside:** 38 X 38 X 56 (inches)

**Outside:** 42 X 42 X 60 (inches) (64.5 with skids)

**Capacity:** 46.8 (cft)

**Ext. Capacity:** 61.25 (cft)

**Weight Built Lbs:** 29.5

**Top Lbs:** 4.5

**Pallet Bottom Lbs:** 7

**Side 56" Lbs:** 4.5

## 'Super-Ice Cube' Insulated Bulk Shipping Containers (Small)

<b>Small Cube-SKU:</b> 334 SUPERCUBE
<b>Inside:</b> 38 X 38 X 30 (inches)
<b>Outside:</b> 42 X 42 X 34 (inches) (38.5 with skids)
<b>Capacity:</b> 25.07 (cft)
<b>Ext. Capacity:</b> 34.71 (cft)
<b>Weight Built Lbs:</b> 19.5
<b>Top Lbs:</b> 4.5
<b>Pallet Bottom Lbs:</b> 7
<b>Side 56" Lbs:</b> 2

## 'Super-Ice Cube' Insulated Bulk Shipping Containers Double Stack

**\*Bottom Cube Empty-4 sides-No Wrap**

**\*Bottom Cube Empty-3 sides-Hand Wrap**

**\*For the purpose of demonstrating strength and durability only.**
